

I find it disgusting that the NAB is attempting to limit what XM radio offers. What happened to competition?? Rather than having lobbyists work to stifel XM, why not embrace it and join in?? Ahhh wait, the local radio stations that are owned by the big guys are afraid!!! Xm is a wonderful service, I listen to it almost all the time. I guess the NAB is scared by the competition....so they are trying to stop it. Please do not consider buckling to the NAB and let the American way of free enterprise work the way it's supposed to!!!
